

Introducing

MENTHOL W8

The World's Smallest Beauty Case

from the Cyclodextrin Expert.

Menthol is an efficient natural cooling agent, with a distinctive odor. Menthol W8 is a commercially available stabilized cyclodextrin inclusion complex with CAVAMAX[®] W8. This formulation provides improved water solubility, and a long lasting cooling effect, but with a low odour.

Recommended dosage: 1 – 10 % (Complex)

MENTHOL W8

Product Data

Menthol Content (on dry basis)	10.5 % ± 1%
Residue on ignition	0.1 % max.
Heavy metals	10 ppm max.
Water (Karl Fischer)	14 % max.
Micro-organisms	1000 /g max.

Packaging

Units of 1 kg, 25 kg.

Registration

EINECS, TSCA
INCI : Cyclodextrin / Menthol

Characteristics

Chemical name:	Menthol, γ -cyclodextrin inclusion complex
CAS-No.:	17465-86-0 2216-51-5
Appearance:	Free flowing white powder
Bulk density:	~ 0.37 g/cm ³

Storage

Storage in sealed containers under cool dry conditions is recommended, when stored under these conditions Menthol W8 remains stable for at least 12 months.

Continued storage beyond the designated shelf life does not necessarily mean the material cannot be used. However, it is imperative for reasons of quality assurance that the user checks product data of significance for the intended application.

Adrian, Jan. 2001

The data presented in this technical data sheet are in accordance with the present state of our knowledge, but do not absolve the user from carefully checking all supplies immediately on receipt. We reserve the right to alter product constants within the scope of technical progress or new developments. The recommendations made in this data sheet should be checked by preliminary trials because of conditions during processing over which we have no control, especially where other companies' raw materials are also being used. The recommendations do not absolve the user from the obligation of investigating the possibility of infringement of third parties' rights and, if necessary, clarifying the
